

TaG Waste Management Ltd (01926 811879)

Cut Recycling Costs by up to 50%

Office Paper Recycling

We at TaG understand the systems and processes your Company has in place for dealing with waste and recycling.

TaG consults free of charge with your business to understand everything that is required to suggest a **better waste** solution.

During the waste audit we look at:

1. The amount of waste your business produces
2. The types of waste streams your business produces.
3. The legal waste duty of care enforcement.
4. Accurate account of your waste that is going to landfill
5. The total cost of your services including hidden costs such as container rentals and administration under duty of care.

A waste audit is the next step after our initial free proposal in providing an improved service for a better system to manage your waste and recycling which can of course be used as feedback to allow you to measure performance and **tailor a waste solutions that meets your company's environmental needs.**
